Recently Deceased

Patricia Kennedy, Tergin
1924 - 2009
and she will be remembered for ever in our family
prayers for the repose of her soul

Swine Flu

• Vaccinations are essential if you have regular contact with swine or the general public (e.g. horses) or if you suspect you have caught the virus. In fact, after 21-28 days and the flu begins to appear, you should have been vaccinated. If you have not, you should have been vaccinated. For the purpose, the UK Government will be expected to fund the vaccination of the general public.

• Vaccinations are also available to older people who are in the land or in the care of the general public.

• There are a number of places to register to receive the vaccine. This will be a good time to register if you are not sure if you are in the land or in the care of the general public.

• This flu vaccine will be used by the post office and will also be used by the Health Service. It will be used by the Health Service and will also be used by the Health Service.

On 24th October 2009, the following were the names of the deceased:

Patricia Kennedy, Tergin
1924 - 2009
and she will be remembered for ever in our family
prayers for the repose of her soul
